## DISCIPLINE SYLLABUS

### Research Seminars I, II, VI & VII: Introduction to Research Methodology

Professor Luiz Antonio Gomes Senna

Level  
GRD  
Type  
OBR

Course  
M/D  
Education  
Cr./C.h  
8(120h)

QUI 18h  
Hybrid • in-face

Main objective:

**Nature and function of distinct methodologies applied to so called Human Sciences, notably in the field of inclusive schooling education**

Formative objectives:

- Motivations and ethic precepts of research methodology.
- Conflicts between human realities and the phenomenology of Classic-Modern science.
- Research methodology as an instance derived from a decision guided by investigation object.
- "Research project" as final instance of a conduct of planning and description of an investigative process.
- The notions of *fact*, *object* and *objectives* as faces of project's research concept.
- Definition and categorization of research methodologies as instruments of validation in the process of academic-scientific knowledge production.
